

DIVISIONAL OVERVIEW

Gallet Healthcare is focused on its clients' needs. Pure and simple. And that means providing the very best healthcare packages around, educating our clients and their staff as to the latest industry developments, general health and fitness maintenance, and providing truly caring support when it's needed most – in times of crisis and chronic illness.

In summary, we offer our clients a real healthcare partnership.

Coupled to this, we also understand that careful financial management, informed product selection and professional knowledge are essential in any well-balanced healthcare package. Our healthcare division prides itself in finding this delicate balance, and then informing its members of the most suitable options.

And Gallet's Healthcare services are not only restricted to its corporate clients, but extends itself to individuals seeking the same personal attention, advice and support
